EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Elmer Galbi on 6/4/2006 to make the wording in the claims more closely conform to the language in the specification.

The specification has been amended as follows:

claim 1, line 8, after "requiring bandwidth and" delete ---having---,

claim 1, line 8, before "specified classes of service" add ---being normalized with respect to---,

claim 1, line 12, after "to said voice traffic" add ---in a multiplexed data stream---,

claim 1, line 13, change "said traffic" to ---said data traffic and said voice traffic---,

claim 2, line 6, after "requiring an amount bandwidth and" delete ---having---,

claim 2, line 6, before "specified" add ---being normalized with respect to---,

claim 2, line 13, after "interconnection resources" add ---in a multiplexed data stream---

claims 3-12 (canceled).

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior arts fail to teach or fairly suggest a system for interconnecting telephones and computers, the system including data traffic requiring bandwidth and being normalized with respect to specified classes of service,

means for dynamically adjusting the amount of a total bandwidth allocated to the data traffic and voice traffic in a multiplexed data stream depending upon the class of service of the data traffic and the voice traffic, within the structure of the independent claim 1.

Regarding claim 2, the prior arts fail to teach or fairly suggest a system for interconnecting telephones and computer, the system including data traffic requiring an amount of bandwidth and being normalized with respect to specified classes of service,

means for dynamically managing a total amount of bandwidth for multiple streams of data traffic and for multiple stream of voice traffic drawing from a pool of trunk interconnection resources in a multiplexed data stream based upon the class of service of the stream of data traffic and the stream of voice traffic, within the structure of the independent claim 2.

Note : The cancellation of claims 3-12 is based on the restriction requirement mailed 06/15/2005.

Conclusion

3. Any inquiry concerning this communication or earlier communication from the examiner should be directed to Thien Tran whose telephone number is (571) 272-3156. The examiner can normally be reached on Monday-Friday from 8:30AM to 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Doris To, can be reached on (571) 272-7629.
